

Progressive Turf Turf Foundation™ 10-3-5

(For Golf Course, Sports Turf & Ornamental Maintenance)

General Information:

Progressive Turf, LLC is a dedicated manufacturer of turf and ornamental products utilizing proprietary amendments that are safe and effective for all plants. When used as directed, Progressive Turf products provide the professional turf and landscape manager with a unique set of tools for developing and maintaining exceptionally high quality turfgrass and ornamental plants.

Turf Foundation™ (10-3-5) is specially formulated to be used as the base or "Foundation" product in your Progressive Turf fertility program. *Turf Foundation™* provides primary plant nutrients in a T&O-friendly ratio to support balanced growth.

Application Guidelines:

Turf Foundation™ (10-3-5) is effective as a direct foliar application or fertigation type product. It may be tank mixed or injected with other fertilizers or agricultural chemicals after conducting a jar test for compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making broad scale general applications.

Turf Foundation™ provides 0.10 lb. of N per 1,000 sq. ft. (at weekly or biweekly intervals) when used at 12.8 fluid ounces per 1,000 sq. ft. per application. For ornamental applications, use 1 oz. of product per gallon of water. For hydroseeding, apply at a rate of 5 gallons of product per acre.

For Commercial Use Only

KEEP OUT OF REACH OF CHILDREN
