

Progressive Turf *Turf Foundation™* **10-3-5**

(For Professional Golf Course & Sports Turf Maintenance)

General Information:

Progressive Turf, LLC is a manufacturer of turf products utilizing amendments that are safe and effective for all plants. When used as directed Progressive Turf products provide the professional turf and landscape manager with a unique set of tools for developing and maintaining exceptionally high quality turfgrass.

Turf Foundation™ (10-3-5) is specially formulated to be used as the base or "foundation" product in your Progressive Turf program. *Turf Foundation™* provides primary plant nutrients in a turf-friendly ratio to support balanced growth.

Application Recommendations:

Turf Foundation™ (10-3-5) is effective as a direct foliar application or fertigation type product. It may be tank mixed or injected with other fertilizers or agricultural chemicals after conducting a jar test for compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making broadscale general applications.

Turf Foundation™ provides a constant feed rate of 0.10 lb. of N per 1,000 sq. ft. (at weekly or biweekly intervals) when used at 12.8 fluid ounces per 1,000 sq. ft. per application. A rate of 0.05 lb. N may be obtained with 6.4 oz. per 1,000 sq. ft., and 0.25 lb N with 32 oz. per 1,000 sq. ft., etc.

For Commercial Use Only
