

# Progressive Turf *Turf Foundation™*

## 10-3-5

(For Golf Course, Sports Turf & Ornamental Maintenance)

### General Information:

Progressive Turf brand is dedicated to the manufacture of turf and ornamental products utilizing proprietary plant-derived extract and protein hydrolysate that are safe and effective for all plants. When used as directed, Progressive Turf products provide the professional turf and landscape manager with a unique set of tools for developing and maintaining exceptionally high quality turfgrass and ornamental plants.

*Turf Foundation™* (10-3-5) is specially formulated to be used as the base or "foundation" product in your Progressive Turf fertility program. *Turf Foundation™* provides primary plant nutrients in a T&O-friendly ratio to support balanced growth.

### Application Guidelines:

*Turf Foundation™* (10-3-5) is effective as a direct foliar application or fertigation type product. It may be tank mixed or injected with other fertilizers and/or agricultural chemicals after conducting a jar test for compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making broad scale general applications.

*Turf Foundation™* provides 0.10 lb. of N per 1,000 sq. ft. (at weekly or biweekly intervals) when used at 12.8 fluid ounces per 1,000 sq. ft. per application. For ornamental applications, use 1 oz. of product per gallon of water. For hydroseeding, apply at a rate of 5 gallons of product per acre.

### For Commercial Use Only:

KEEP OUT OF REACH OF CHILDREN

### Storage Information:

Progressive Turf products should be stored in a climate controlled environment between 50°-90° F. Failure to follow storage guidelines may lead to crystal formation to product degradation. Use all product within 12 months of purchase date.

#### Guaranteed by:

N-Vizion Products Group, Inc.  
3811 Lexington Road  
Washington, GA 30673

### Guaranteed Analysis:

Total Nitrogen (N)	10.00%
1.85% Ammoniacal Nitrogen	
2.40% Nitrate Nitrogen	
5.75% Urea Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> )	3.00%
Soluble Potash (K <sub>2</sub> O)	5.00%

Derived from: Protein hydrolysate, Ammonium Nitrate, Urea, Ammonium Phosphate, and Potassium Nitrate.

### Specifications:

Density at 68° F                      9.9 lb./gal.

Information regarding the contents and levels of metals in this product is available on the Internet at:

**SHAKE WELL BEFORE USING**

## **Features and Benefits**

### **Progressive Turf Soybean & Plant Extract Fertilizers**

#### **Features**

- 40% less salts than others
- Stimulates horizontal growth
- Improves mass of root systems
- Reduces hydrophobic spots
- Reduces the use of wetting agents
- Reduces algae growth on turf
- Environmentally friendly
- Contains natural auxins and cytokinins
- Mixes completely in cold water
- Will not burn – even at 3x the rates
- Rescues declining/damaged greens FAST!
- Contains carbohydrates and sugars
- Increases availability of soil nutrients
- Rapid turf damage recovery
- Unconditional guarantee

#### **Benefits**

- No salt build up in the soil
- Improves density, great fill-in, less clippings
- Increases absorption efficiency
- Improves hydration of soils for greater uniformity
- Cost savings – naturally
- Greater density and uniformity of turf
- No caustic chemicals in the environment
- Improves turf health and vigor
- Simplifies mixing and application
- Assurance of safe applications, lush turf
- Insurance for superintendents-turf managers
- Increases balance and health of microbes
- Increases availability of other products
- Aerification by 40% – ball marks by 50%
- None other like it – product confidence
